Unique artisan jewelry for you

Mothers Day, graduations, weddings, proms, horse races, birthdays. So much to celebrate this time of year!

It all started in Charleston... Vintage China—this artisan jewelry was the inspiration for *myfriendkat*. Kelli, Isa and I were on a girls' trip, and we each fell in love with a different pendant. Beautiful china, expert silver craftsmanship. Every time we wear them we get compliments, and we think about our fun time together. A great memory linked to a beautiful work of art. Wear it on a silver chain or a colorful ribbon. What will you celebrate? Enjoy! Kat Smith

More Mings for Spring

From Donna, the artisan--“No two Ming shards are quite alike; each one is a little different. When you wear these necklaces you are wearing history! Each pendant is made from ancient pottery shards gathered from small villages in China. Set in sterling silver or silver-plate, each is one of a kind. The pottery is 100-300 years old. Because they are gathered from remote villages, their authenticity of age cannot be guaranteed.”

Thank you for your great response to my first collection! By popular demand, I'll always have a few Mings with each new collection.

Enjoy! Kat
